Laika presents the Kosmo H 1409 at the CMT in Stuttgart

San Casciano in Val di Pesa, December 2023

- *The H 1409 completes the renewal of the Kosmo range*
- *It will be presented at the CMT in Stuttgart, from 13 to 21 January 2024*

One more piece to complete the jigsaw puzzle of the revamped Kosmo range.

After presenting the Kosmo L 319, L 409 and H 1319 at the Caravan Salon in Düsseldorf and the Kosmo L 412 DS at the Salon VDL in Paris, Laika unveils yet another motorhome model at the CMT in Stuttgart.

The Kosmo H 1409 reproduces the interior structure of the L 409 low-profile model: combinations and materials maintain the association that distinguishes the new Kosmo range, with a generously sized windscreen and more living space in the dinette. On the outside, the stylistic design of the honeycomb grille takes the scene: made of single-block fibreglass, it reminds that the Kosmo belongs to the new-generation Laika models.

This vehicle, like the entire Kosmo range, is the result of a collaboration with **GFG Style**, a company founded by Giorgetto and Fabrizio Giugiaro. Attention to detail is immediately perceptible in the Kosmo H 1409: a vehicle with sophisticated styling, balanced tones and artfully designed spaces **in the name of Italian design**.

An in-depth look at the Kosmo H 1409

Technically, the Kosmo H 1409 is a latest-generation motorhome, 740 cm long, built on a conversion cowl base: only chassis without body, without passenger compartment and without floor. The basic power unit is the 2.2 MultiJet III with 140 hp and manual gearbox.

The exterior of the Kosmo Motorhome has been completely redesigned, and features a modern layout: the black/white two-tone that stands out along the sides of the vehicle, the full LED

headlights and the fibreglass single-block grille all reveal a strongly distinctive look with an automotive origin.

Inside, too, the characteristics of the range are confirmed: the Kosmo H 1409 offers a charming setting in which colour tones intertwine, providing a warm welcome on board. The furniture, available in "Forest Green & Stone Grey" wood, alternates different colours according to the type of element. The colour palette on board contributes to the modern and evocative interior setting of the Kosmo.

The bathroom and shower constitute two separate rooms, providing convenience and independent space management, just like at home.

The Kosmo H 1409 has all the utilities you need to enjoy your holiday in comfort. Starting with the kitchen, which features a three-burner hob, a Fenix kitchen countertop (an anti-fingerprint and scratch-resistant material) and drawers for storing everything you need, just like in your home kitchen. The drop-down bed, by the way, is standard here: a 193x150 extra bed with slatted base and comfort mattress, with portlight and storage shelf. An additional bedroom, also equipped with a separation curtain.

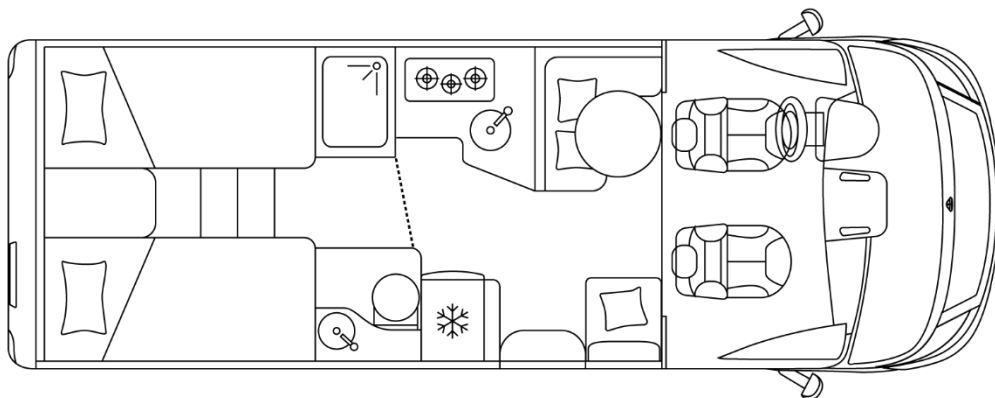

The twin beds (210x80 cm - 205x80 cm) with wooden slatted base, combined with the high-comfort mattresses, will offer you a well-deserved rest at the end of a day on the move.

Presentation at the CMT in Stuttgart

The presentation of the Kosmo H 1409 is scheduled to take place at the CMT in Stuttgart from 13 to 21 January at the "Messe Stuttgart" Exhibition Centre.

LAIKA, WITH YOU ON YOUR TRAVELS SINCE 1964

59 years have passed since, in 1964, Giovanbattista Moscardini founded LAIKA, calling it after the first dog launched into space. Fascinated by the space adventures and the new horizons that were opening up, Moscardini laid the foundations for what is now an avant-garde company, which stands out for its production of design and excellent construction technique. Laika Caravans belongs to the Erwin Hymer Group and manufactures vehicles designed with excellent construction techniques, made to last and suitable for any climatic situation. Customer satisfaction is Laika's main goal. Thanks to its team with extensive competence and experience, it creates vehicles with attention paid to the smallest details. www.laika.it/en/
